Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group II, claims 11-20, in the reply filed on June 14, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 1-10 and 21-32 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 14, 2004.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 11-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huang et al., US 6,151,582.

Huang discloses a computer implemented system comprising for deploying part components defining a plurality of locations, lead times, stock levels, a demand, e.g. Figs. 5, 9. Huang does not explicitly disclose a coverage function.

Official Notice is taken that coverage and optimization functions have been common knowledge in the art prior to Applicant's inventive concept. To have provided optimization and coverage functions for Huang would have been obvious to one of ordinary skill in the art. The motivation for having provided such would have been to deploy the parts in the locations where each is needed via a service level. The remaining dependent claims appear common knowledge operational system computations. Official Notice is taken of such. To have provided such would have been obvious to one of ordinary skill in the art.

5. Further pertinent references of interest are noted on the attached PTO-892.
6. Applicant's Information Disclosure Statement (IDS) is noted and has been cursory reviewed. It is suggested Applicant specifically point out the particular features relevant to the instant invention as the IDS document is extensive.
